Subject: RE: CA Water Plan Update 2018 Tribal Webinar Recording Now Available

Comments:

1. Good idea to include local and then regional TEK, whenever possible.
2. Need more outreach efforts to include under-represented Native American communities
3. Need to enhance education opportunities so local and Native American communities can participate with TEK and include youth and elders who have historical knowledge of locations and memory of past conditions
4. Need, if possible, program funds for tribes and other Native American communities can participate, plan and budget in their strategic plans.
5. In education, need to translate data definitions and sources for local people to understand better DWR goals, objectives, and actions.
6. Need DWR cultural training on Native American values, to extrapolate their needs, objectives, actions, and results to be included.

Subject: CA Water Plan Update 2018 Tribal Webinar Recording Now Available

Dear Water Plan Tribal Member,

Thank you to those who participated.

Tuesday's tribal webinar briefing was recorded and available to access at https://youtu.be/Su3w_q2h6nA. The webinar is just over 2 hours in duration.

As a reminder your comments to the [Public Review Draft of the California Water Plan Update 2018](#) is due by Monday [January 21, 2019](#).

Again thank you for your participation.
